HIS ROYAL HIGHNESS CROWN PRINCE AL-HUSSEIN BIN ABDULLAH II

Welcome Message

Dear Colleagues and Friends,

On behalf of the Jordanian Society of Anesthesia, Intensive Care and Pain Management, it is our great pleasure to welcome you to the **14th National & 8th International Congress of the Jordanian Society of Anesthesia, Intensive Care and Pain Management**, taking place from **24–26 September 2026 in Amman, Jordan, under the patronage of Her Royal Highness Princess Muna Al Hussein.**

This congress brings together anesthesiologists, intensivists, pain specialists, healthcare professionals, researchers, and industry partners from Jordan, the region, and around the world. It provides an important platform for exchanging knowledge and experience, strengthening professional collaboration, and exploring the latest developments in **anesthesia, intensive care, emergency medicine, and pain management.**

The three-day scientific program has been carefully developed to feature plenary lectures, focused scientific sessions, panel discussions, interactive presentations, and practical hands-on workshops. Distinguished local, regional, and international experts will share their knowledge and experience across a wide range of contemporary clinical topics, with a strong focus on advancing patient care, medical education, and professional practice.

The congress also provides an opportunity to engage with our valued industry partners and explore the latest technologies, medical equipment, pharmaceutical developments, and innovative solutions supporting anesthesia, critical care, and pain management.

We extend our sincere appreciation to our invited faculty, speakers, moderators, scientific and organizing committees, sponsors, exhibitors, partners, and everyone whose valuable contribution has made this congress possible.

We warmly welcome all consultants, specialists, residents, trainees, anesthesia technologists, nurses, medical students, and colleagues from related specialties. We hope that these three days will provide you with meaningful scientific exchange, valuable professional connections, and an enjoyable experience in **Amman, Jordan.**

We wish you a productive and successful congress and look forward to sharing this important scientific occasion with you.

With best wishes and kind regards,

Dr. Badei Abusaif

President, Jordanian Society of Anesthesia, Intensive Care and Pain Management
President of the Congress

Prof. Abdelkarim Aloweidi Al-Abbadi

Chairman of the Scientific Committee

SPEAKER BIOGRAPHIES

24-26
SEPTEMBER 2026
Amman, Jordan

Prof. Abdelkarim Aloweidi Al-Abbadi *Chairman of the Scientific Committee*

*Professor & Senior Consultant in Anaesthesiology, Intensive Care and Pain Management, The University of Jordan
President, Pan Arab Federation of Societies of Anaesthesia (PAFSA)*

Professor and Senior Consultant in Anaesthesiology, Intensive Care, and Pain Management at the Faculty of Medicine, The University of Jordan. President of the Pan Arab Federation of Societies of Anaesthesia, Intensive Care, and Pain Management (PAFSA), Chair of the Scientific Committee of the Jordanian Society of Anaesthesia, and a member of the WFSA Pain Committee. He completed his specialist training and fellowships in Anaesthesiology, Intensive Care, Pain Management, and Acupuncture at the University of Giessen, Germany. Arab Board examiner, author of more than 52 international scientific publications, and awarded a Doctor Honoris Causa by "Grigore T. Popa" University of Medicine and Pharmacy, Iași, Romania.

Dr. Ahed Al-Edwan *Consultant Thoracic Anaesthesia*

*FRCTA, Germany 2008 · Tübingen University
Royal Medical Services · King Hussein Cancer Center*

Consultant in thoracic anaesthesia. FRCTA, Germany 2008. Trained at Tübingen University, Germany and the London Clinic, Westminster University. Royal Medical Service and King Hussein Cancer Center.

Dr. Ahmad Emad Alkharabsheh *Specialist in Anaesthesia & Intensive Care*

*Clinical Fellowship in Thoracic Anaesthesia, King Hussein Cancer Center
Jordanian Board in Anaesthesia and Intensive Care*

Specialist in Anesthesia and Intensive Care with advanced training and clinical experience in thoracic anesthesia. He completed his MD at Jordan University of Science and Technology in 2020, followed by residency training in Anesthesia and Pain Management at King Hussein Cancer Center. He obtained the Jordanian Board in Anesthesia and Intensive Care in 2025 and completed a Clinical Fellowship in Thoracic Anesthesia at King Hussein Cancer Center (2025–2026). His clinical interests include thoracic anesthesia, perioperative management of high-risk surgical patients, and interventional techniques in pain management.

SEPTEMBER 2026
Amman, Jordan

Dr. Ala Riyad Balawi

Anaesthesiologist, Princess Basma Teaching Hospital

*Jordan Medical Council — Anaesthesia and Intensive Care
Higher Medical Specialty, Jordan University of Science and Technology*

Jordanian Anesthesiologist currently working at Princess Basma Teaching Hospital, Ministry of Health. He holds Jordan Medical Council certification in Anesthesia and Intensive Care and a Higher Medical Specialty in Anesthesia from Jordan University of Science and Technology. He previously served as Chief Resident at King Abdullah University Hospital and has anesthesia experience at several hospitals in Jordan.

Dr. Aliaksei Pustavoitau

Associate Professor of Anesthesiology & Critical Care Medicine

*Johns Hopkins University
Director of Perioperative Ultrasound · Medical Director, Respiratory Care Services*

An associate professor of anesthesiology and critical care medicine in the Johns Hopkins University. He received his medical degree in Minsk, Belarus, finished anesthesiology residency at Wayne State University / Detroit Medical Center and critical care medicine fellowship at the Johns Hopkins Hospital. Dr. Pustavoitau is Medical Director of Respiratory Care Services at the Johns Hopkins Hospital, Director of the HTRIP Program, and Director of Perioperative Ultrasound in the Department of Anesthesiology and Critical Care Medicine. He is an educator and an advocate for critical care ultrasound through his involvement with the SCCM and the Society of Critical Care Anesthesiologists.

Dr. Amar Salti

Head of Department & Consultant, Anaesthesia and Pain Management

*Abu Dhabi Stem Cell Centre — Yas Clinic, Abu Dhabi
President, World Society of Pain Clinicians · Founder, Gulf Pain School*

MD, EDRA, EDPM. Head of Department and Consultant in Anesthesia & Pain Management at Abu Dhabi Stem Cell Centre — Yas Clinic, Abu Dhabi, UAE. Founder of Gulf Pain School and Adjunct Clinical Professor at Lerner Medical College, Ohio, USA. President of the World Society of Pain Clinicians (WSPC).

SEPTEMBER 2026
Amman, Jordan

Dr. Badie Mohammed Abu Seif

Consultant in Anesthesia, Intensive Care and Pain Management

Head of the Anesthesia and Operation Department, Islamic Hospital, Jordan

Chairman, Jordanian Society of Anesthesia, Intensive Care and Pain Management

Consultant in Anesthesia, Intensive Care, and Pain Management at Islamic Hospital, Jordan, where he also serves as Head of the Anesthesia and Operation Department. He holds Jordanian and Arab Board certifications in Anesthesia and Intensive Care, as well as the Jordanian Medical Board in Pain Management. He is currently Chairman of the Jordanian Society of Anesthesia, Intensive Care and Pain Management.

Hadi Khattar

Nutrition & Healthcare Administration Consultant

*PhD in Nutrition & Healthcare Administration · PhD in Community Health
Certified in diabetes education, clinical nutrition and quality management*

Nutrition and Healthcare Administration Consultant with PhDs in Nutrition & Healthcare Administration and Community Health, along with a Master's and Bachelor's degree in Nutrition. He is internationally certified in diabetes education, clinical nutrition, food safety, quality management, and strategic management, with extensive professional experience in Jordan, Saudi Arabia, the UK, USA, Canada, and Germany.

Prof. Elisabeth De Waele, MD, PhD

Prof. Elisabeth DeWaele is Head of the Department of Clinical Nutrition and Senior Consultant in Intensive Care Medicine at UZ Brussel, as well as Professor at Vrije Universiteit Brussel (VUB). She is internationally recognized for her expertise in clinical nutrition, critical care metabolism, and personalized nutritional support for critically ill and surgical patients.

She holds board certifications in both Surgery and Intensive Care Medicine and earned her PhD on Energy Expenditure and Nutritional Therapy in Critically Ill Patients. Prof. De Waele has authored more than 170 scientific publications and is a frequent invited speaker at major international congresses, including ESPEN, ESICM and ISICEM.

She serves on the leadership of the European Society for Clinical Nutrition and Metabolism (ESPEN) and is widely respected for advancing evidence-based nutritional care to improve patient outcomes across critical care and perioperative settings

Dr. Frédéric Michard, MD, PhD
Consultant and Researcher at MiCo, Switzerland
MiCo
MD, PhD

Critical Care, Physiological Monitoring, Hemodynamic Management, Fluid Management, and Digital Health

Dr. Frédéric Michard is a world-renowned critical care expert and a leading specialist in hemodynamic and physiological monitoring. He is the co-developer of Pulse Pressure Variation (PPV), an important development in fluid management and hemodynamic monitoring.

Harvard-trained and highly cited, with more than 10,000 citations, Dr. Michard has contributed extensively to research and clinical practice in critical care and perioperative hemodynamic management. He is also the founder of MiCo, Switzerland, and his work focuses on physiological monitoring, hemodynamic optimization, and digital health.

Through his research and educational activities, Dr. Michard has helped translate advances in monitoring technology and physiological science into practical clinical applications. His work continues to focus on improving clinical decision-making and patient management through innovative approaches to hemodynamic monitoring and digital health.

Mr. Mohammad Abdallah

Monitoring Solution Modality Leader – Middle East, South Africa & Pakistan

GE healthcare

Amman, Jordan

Patient Monitoring Solutions, Clinical Applications, Healthcare Technology & Business Development

Mohammad Abdallah has more than 15 years of experience in the healthcare industry. He holds a Bachelor's degree in Nursing from Jordan and started his career as a registered nurse in the ICU, where he practiced for five years. He joined GE HealthCare in 2010 as a Clinical Application Specialist for Monitoring Solutions (MS), before moving into business roles in 2015. He currently serves as Monitoring Solution Modality Leader for the Middle East, South Africa & Pakistan. Throughout his career, Mohammad has combined strong clinical experience with commercial and technical expertise in patient monitoring solutions. His background enables him to understand both clinical requirements and customer needs, while supporting the adoption of advanced monitoring technologies across diverse healthcare environments.

Dory Sophia DBA, MBA, MSM

Product Manager Emerging Markets – Anesthesia and Respiratory care
GE healthcare

Product Manager for Emerging Markets at GE healthcare FZE. Emerging markets includes Africa, Middle east, Russia, Turkey & Pakistan. With more than 15 years of experience in Healthcare, Dory held several roles spanning from clinical applications, marketing and commercial strategy across Anesthesia and Respiratory care business. He is responsible for driving business growth, introducing innovative technologies, developing go-to-market strategies and supporting healthcare providers in adopting advanced anesthesia technologies. Dory Holds a MBA in Health and hospital management from la Sagesse University Lebanon and a master's in marketing and communication from ESCP – Paris. Dory is currently completing his Doctorate in business management with focus on decision making in healthcare manufacturing companies at IAE de Nice – France and Ecole Supérieure des Affaires Beirut.

Dory's Background combines Clinical expertise and extensive experience in medical technology. He is passionate about advancing perioperative care through innovation.

SEPTEMBER 2026
Amman, Jordan

Dr Carolina Haylock Loor

Clinical and Academic Profile

Dr Carolina Haylock Loor is a Honduran physician and anaesthesiologist trained in Spain. She practises anaesthesiology, intensive care, and interventional pain medicine in San Pedro Sula, Honduras. She is Adjunct Professor of Pain Medicine at UNAH, teaching in the anaesthesiology, neurology, and internal medicine residency programmes.

Leadership and Patient Safety

She is President of the World Federation of Societies of Anaesthesiologists (WFSA), having served as President-Elect in 2024, Director of Programs in 2020, Chair of the Diversity, Equity and Inclusion Committee, and a Council Member since 2012.

As former President of the Honduran Anesthesia Society (SHARD), she helped close the national pulse oximetry gap in 2012 through collaboration with the University of Florida and the WHO Surgical Safety Checklist initiative. She also contributed to the Utstein2 Metrics project.

Education and International Engagement

She promotes WFSA education worldwide, including EPM, SAFE Obstetric, SAFE Paediatric, Safe OR, PTC, VAST, and the Wellbeing module. She serves on the steering groups for the WFSA Perioperative Patient Blood Management (p-PBM) and Global Leadership in Anaesthesiology (GLiA) courses.

An international speaker and published author, she is committed to advancing patient safety, medical education, and global leadership in anaesthesiology.

Registration Fees

USD 200

International Participants

JD 100

JSAIC Members

JD 150

Jordan Medical Association Members

JD 50

Residents

JD 20

Medical Students (Scientific Session Only)

JD 150

Non-members

(Pre-Registration Required)

The Registration fees include Access to the scientific sessions, the exhibition, lunches, coffee breaks, a certificate of attendance, and an abstract book with the final program

Hotel Accommodation

Single Room: **\$160 USD** per room per night
Double Room: **\$185 USD** per room per night

(inclusive of service charge, sales tax, and buffet breakfast)

DAY 1

Thursday | 24 September 2026

Workshop 1

POCUS – The EASy Workshop

Point-of-Care Ultrasound (POCUS) During Perioperative Emergencies

Code: JSAIC26-WS-D1-01	
Date: 24 September 2026	Time: 8:00 AM – 4:30 PM
Instructors: Omar Al Duraa (USA), Nibras Bughrara (USA), Aliaksei Pustavoitau (USA)	
Coordinator: Prof. Abdelkarim Aloweidi Alabbadi	
Capacity: 4 Stations — 24 Persons (Limited Seats)	Fee: JOD 100
Equipment: 4 Ultrasounds (AMSA/GE)	

COURSE OVERVIEW

Welcome to this focused and interactive one-day workshop designed to enhance your skills and knowledge in integrating Point-of-Care Ultrasound (POCUS) into critical perioperative care. This course centers on the EASy (Echocardiographic Assessment using Subxiphoid-only) protocol — a streamlined, efficient approach for the rapid assessment of critically ill patients.

The EASy protocol is a powerful tool in managing perioperative emergencies, including shock, sepsis, and cardiopulmonary arrest. By utilizing a single, high-yield subxiphoid view, clinicians can swiftly identify critical hemodynamic patterns and optimize patient management. This protocol is particularly valuable during Advanced Cardiac Life Support (ALS), and in preparing patients for emergency airway management, especially in physiologically difficult airway scenarios (EASy-PDA).

WHAT TO EXPECT

In this one-day intensive course, you will engage in hands-on practice, interactive case discussions, and practical demonstrations. The curriculum focuses on equipping you with the essential skills and confidence to apply POCUS effectively in high-stakes perioperative settings. We are excited to have you join this transformative learning experience, led by experts in the field. Together, we will explore the critical role of POCUS in optimizing patients during perioperative emergencies.

COURSE HIGHLIGHTS

- Master the EASy protocol to assess shock phenotypes and guide interventions in perioperative emergencies.
- Integrate POCUS into ALS protocols to enhance resuscitation efforts while maintaining efficiency.
- Utilize ultrasound to optimize patients before emergency airway management and selecting anesthetic agents.

DAY 1

Thursday | 24 September 2026

FULL-DAY PROGRAM

Time	Session	Room	Details
7:00 – 8:00	Registration	-	
8:00 – 8:10	Introduction	-	
8:10 – 8:30	Overview	Lecture Room	Group Introductions, Surveys, and Pre-test
8:30 – 10:00	Image Acquisition Introductions (20 minutes each)	Lecture Room	Subcostal Cardiac and Inferior Vena Cava Views Introduction to Lung Ultrasound Introduction to Gastric Ultrasound Hemodynamic Phenotypes of Patients in Shock
10:00 – 10:15	Break	-	
10:15 – 12:15	Interactive Ultrasound Demonstrations	Skills Room (small groups)	Volume Assessment Left Ventricular Assessment Right Ventricular Assessment Image Acquisition and Random Cases
12:15 – 12:30	Distribute lunch boxes	Lecture Room	
12:30 – 1:30	Presentations	Lecture Room	Ultrasound Use in Advanced Cardiac Life Support Ultrasound Support of Resuscitation in Sepsis and Septic Shock Incorporating EASy in Physiologically Difficult Airway (PDA) Management
1:30 – 2:00	Small Groups Simulation — Code-Plus!	Skills Room (small groups)	
2:00 – 2:15	Break		
2:15 – 4:15	Clinical Case Discussions with Report Generation	Skills Room (small groups)	
4:15 – 4:45	Limitations and Pitfalls	Lecture Room	
4:45 – 5:15	Post-test and Closing Remarks	Lecture Room	

Rooms: Lecture Room (didactics) and Skills Room (hands-on small groups).

DAY 1

Thursday | 24 September 2026

Workshop 2

Difficult Airway Management

Storz Mediproz

Code: JSAIC26-WS-D1-02	
Date: 24 September 2026	Time: 8:30 AM – 11 PM
Instructor: Dr. Marwan Yasen	Coordinator: Dr. Badie Abuseif
Capacity: 10 Persons (Limited Seats)	Fee: JOD 50

COURSE DESCRIPTION

This advanced workshop combines simulation-based difficult airway management with image-guided interventional pain procedures. Participants will acquire practical skills using airway simulators, ultrasound, and fluoroscopy-based techniques.

LEARNING OBJECTIVES

- Master difficult airway algorithms.
- Perform video laryngoscopy and fiberoptic intubation.
- Understand indications for interventional pain procedures.
- Perform basic image-guided pain interventions safely.

COURSE CONTENT

- Advanced Airway Management
- Airway Assessment
 - ASA Difficult Airway Algorithm
 - Video Laryngoscopy
 - Flexible Fiberoptic Intubation

Practical Training

- Airway simulators
- Live demonstrations
- Faculty-supervised practical stations
- Interactive case discussions

DAY 1

Thursday | 24 September 2026

Session 1			09:30-11:00
Session Chairperson(s): Dr. Qasem Torman, Dr. Khuldoun Khader Dr. Samar Kabbani			
Time	Title	Speaker	Country
09:30-09:45	Clinical Applications of Artificial Intelligence in Anesthesia: Evidence and Perioperative Implementation.	Dr. Zaineh Altabari	Jordan
09:45-10:00	Needle or No Needle? Evidence-Based Decision Making for Regional Anesthesia in Anticoagulated Patients.	Dr. Hana' Al Shurman	Jordan
10:00-10:15	Obesity and Anesthesia Complications.	Dr. Samar Kabbani	Syria
10:15-10:30	Comparative Evaluation of AI Chatbots for Real-Time Guidance During Intraoperative Anesthetic Crises	Dr. Abdallah Ahmed Al-Azzam	Jordan
10:30-10:45	From Paralysis to Recovery: Intralipid as a Novel Rescue Therapy for Total Spinal Anaesthesia Complicating Epidural Analgesia.	Dr. Fuad Abdelqader	Saudi Arabia
10:45-11:00	Discussion		
11:00-11:30	Coffee Break		

DAY 1

Thursday | 24 September 2026

Session 2			11:30 - 13:00
Session Chairperson(s): Dr. Moawia Al-Ababneh, Dr. Wissam Khreisat Dr. Rasim Alqasem, Dr. Abdulwahid Othman			
Time	Title	Speaker	Country
11:30-11:45	Fibromyalgia.	Dr. Ahmad Hammash	Jordan
11:45-12:00	Considerations for Perioperative Acute Kidney Injury Prevention.	Dr. Eyas Abu Diab	Jordan
12:00-12:15	Understanding Target-Controlled Infusion (TCI) Anaesthesia with Depth of Anaesthesia Guidance.	Dr. Marwan Obeid	Jordan
12:15-12:30	Artificial Intelligence in Anesthesia.	Dr. Eman Alqanaas	Jordan
12:30-12:45	Discussion		
12:45-14:00	Lunch		

DAY 1

Thursday | 24 September 2026

Session 3			14:00-15:30
Session Chairperson(s): Dr. Munir Shawagfeh, Dr. Safaa Mohammed Hilal, Dr. Basel Sadi Elqadah, Dr. Maher Khaled Ghubbas			
Time	Title	Speaker	Country
14:00-14:20	The Nuts and Bolts of Pediatric Anesthesia.	Dr. Safaa Mohammed Hilal	Egypt
14:20-14:40	Ultrasound-Guided Pediatric Caudal Block.	Dr. Omar Ababneh	Jordan
14:40-15:00	The Right Ventricle: The Most Dangerous 100 Grams in Cardiac Anesthesia.	Dr. Mozon Al-Nabulsi	Jordan
15:00-15:15	Discussion		

DAY 1

Thursday | 24 September 2026

Session 4: Jeopardy

Dr. Badie Abuseif, Dr. Yasser Al-Ghol, Dr. Abdulwahid Othman

Session Coordinators: Dr. Ahmed Shahin, Dr. Mohammad Almomani

Time			
15:30-17:00	Jordan University	JUST University	Abdali Hospital
	 الجامعة الأردنية Faculty of Medicine The University of Jordan	 JUST	 مستشفى العبدلي ABDALI HOSPITAL Member of Clemenceau Network

DAY 1

Thursday | 24 September 2026

Opening Ceremony		18:00-19:15
Time	Title	Speaker
18:00	National Anthem	
18:05	Recitals from the Holy Quran	
18:10	Address of the Scientific Committee & the President-elect of the Pan Arab Federation of Societies of Anesthesia, Intensive Care and Pain Management (PAFSA)	Dr. Abdelkarim Aloweidi Al-Abbadi
18:15	Address of the President of the Congress & Society	Dr. Badie Abuseif
18:20	<i>Address of WFSA - World Federation of Societies of Anesthesiologists President</i>	Dr. Carolina Haylock-Loor
18:25	Address of the President of the Jordan Medical Association	Dr. Issa Khashaneh
18:30	Address of Congress Patronage Under the Patronage of Her Royal Highness Princess Muna Al-Hussein	HRH Princess Muna Al-Hussein
18:35-18:45	"Video" Jordanian Society of Anesthesia, Intensive Care and Pain Management	
18:45-18:55	<i>Awards</i>	Master of Ceremony Leena Quraan
18:55-19:15	Opening of Medical Exhibition & Coffee Break	

DAY 2

Friday | 25 September 2026

Workshop 1

Ultrasound-Guided Regional Anaesthesia

Upper Extremity Blocks

Code: JSAIC26-WS-D2-01	
Date: Friday, 25 September 2026	Time: 08:00 AM – 11:00 PM
Duration: 3 Hours	Capacity: 10 Persons
Faculty: Dr. Yasser Reda (Qatar)	Fee: (AMSA) JOD 50

COURSE DESCRIPTION

This intensive practical workshop focuses on ultrasound-guided regional anaesthesia for upper limb surgery. Participants will develop competency in brachial plexus and peripheral nerve blocks using modern ultrasound-guided techniques.

LEARNING OBJECTIVES

- Optimize ultrasound machine settings.
- Identify brachial plexus anatomy.
- Perform safe upper limb nerve blocks.
- Improve needle visualization.
- Prevent complications.

COURSE CONTENT

- Basic Principles: Ultrasound Physics, Probe Orientation, Needle Visualization, Local Anaesthetic Spread
- Brachial Plexus Blocks: Interscalene, Supraclavicular, Infraclavicular, Axillary
- Peripheral Nerve Blocks: Median, Ulnar, Radial, Musculocutaneous, Suprascapular, Axillary
- Practical Training: Live scanning, Faculty demonstration, Supervised hands-on practice, Clinical scenarios

DAY 2

Friday | 25 September 2026

Workshop 2

Ultrasound-Guided Regional Anaesthesia

Lower Extremity Blocks

Code: JSAIC26-WS-D2-02	
Date: Friday, 25 September 2026	Time: 08:00 AM – 11:00 PM
Duration: 3 Hours	Capacity: 10 Persons
Faculty: Dr. Amar Salti (UAE)	Fee: (AMSA) JOD 50

COURSE DESCRIPTION

This workshop focuses on ultrasound-guided lower extremity regional anaesthesia for orthopedic, trauma, and ambulatory surgery.

LEARNING OBJECTIVES

- Identify lower limb sonoanatomy.
- Perform ultrasound-guided lower limb nerve blocks.
- Improve procedural accuracy.
- Prevent complications.

COURSE CONTENT

- Blocks: Femoral, Fascia Iliaca, Adductor Canal, PENG, IPACK, Popliteal Sciatic, Lateral Femoral Cutaneous Nerve, Ankle Block
- Practical Training: Live ultrasound scanning, Needle guidance, Faculty-supervised practice, Clinical applications

DAY 2

Friday | 25 September 2026

Workshop 4

Comprehensive Chronic Pain Management

Islamic Hospital

Code: JSAIC26-WS-D04-04	
Date: Friday, 25 September 2026	Time: 03:00 PM – 06:00 PM
Duration: 3 Hours	Capacity: 25 Persons (JOD 50)
Instructors: Dr. Shahzad Anwar (Pakistan), Dr. Mohammad Riziq (Jordan), Dr. Yaser Al Haj Ali (Jordan)	

COURSE DESCRIPTION

This interactive workshop provides a comprehensive and practical approach to the assessment and management of chronic pain. Participants will develop essential skills in evaluating patients with chronic pain, understanding different pain mechanisms, and selecting appropriate evidence-based treatment strategies. The workshop emphasizes multidisciplinary, patient-centered care through clinical cases, practical demonstrations, and interactive discussions.

LEARNING OBJECTIVES

- Understand the mechanisms and classification of chronic pain.
- Perform a comprehensive assessment of patients with chronic pain.
- Develop individualized, multimodal pain management plans.
- Understand the appropriate use of pharmacological and non-pharmacological therapies.
- Recognize indications for interventional pain management procedures.
- Apply safe and evidence-based approaches to long-term pain management.

COURSE CONTENT

Procedure	Primary Indications
Trigeminal nerve block	Trigeminal neuralgia; refractory facial pain
Stellate ganglion block	Complex regional pain syndrome (upper limb/face); sympathetically maintained pain; select vascular headache
Greater occipital nerve block	Cervicogenic headache; occipital neuralgia; adjunct in migraine management
Sphenopalatine ganglion block	Cluster headache; refractory migraine; facial pain syndromes
Facet joint block	Facet-mediated axial neck/low back pain; diagnostic precursor to medial branch radiofrequency ablation

DAY 2

Friday | 25 September 2026

Session 5			09:00-10:50
Session Chairperson(s): Dr. Naif Aynuseh (KSA), Dr. Abdeljaber Masood, Dr. Ali Obaidat, Dr. Rifaat Shehab			
Time	Title	Speaker	Country
08:30-08:50	From Data to Decision: Big Data Analytics, Decision Support, Prompt Engineering & Precision Anesthesia.	Dr. Ghadeer Alshawabkeh	Jordan
08:50-09:00	Aspen in Anesthesia: A Legacy of Trusted Care. 	Obada Abdelfattah	Jordan
09:00-09:20	Thoracic Anesthesia Is No Longer About the Airway.	Dr. Mohammad Yousef	Jordan
09:20-09:40	Anesthesia and Cognitive Impairment: Does It Matter?	Dr. Naif Aynuseh	KSA
09:40-10:00	From Epigastric to Pelvic Pain: A Comprehensive Guide to Celiac and Superior Hypogastric Plexus Interventions.	Dr. Mohammad Riziq	Jordan
10:00-10:20	Regenerative Medicine for Chronic Spinal Pain.	Dr. Shahzad Anwar	Pakistan
10:20-10:40	Yamamoto New Scalp Acupuncture (YNSA) in the Treatment of Pain Following Injuries, Surgery, and During Rehabilitation.	Dr. Abdelkarim Aloweidi Al-Abadi	Jordan
10:40-10:50	Discussion		
10:50-11:10	Coffee Break		

DAY 2

Friday | 25 September 2026

Session 6

11:10-12:30

**Session Chairperson(s): Dr. Ibraheem Qudaisat, Dr. Thani Al-Awawdeh
 Al-Abbadi, Dr. Waleed Al Rimawi (Palestine)**

Time	Title	Speaker	Country
11:10-11:30	Precession temperature control in critical care & surgery- life- saving impact.  	Dr. Sara Lund	Sweden
11:30-11:50	Multimodal Analgesia in Modern Anesthesia Practice: Optimizing Pain Control. 	Dr. Mohammad Alwahsh	Jordan
11:50-12:10	Low Flow Anesthesia from Concept to Practice.  	Dr. Ala Balaawi	Jordan
12:10-12:30	Smart Ventilation Solutions.  	Mr. Hadi Khattar	United Arab Emirates
12:30-14:00	Friday prayer and Lunch		

DAY 2

Friday | 25 September 2026

Session 7			14:00-16:00
Session Chairperson(s): Dr. Abdelkarim Aloweidi Alabbadi, Dr. Yahya Shehabi, Dr. Sami Abu Halawa, Dr. Imad Swaiss			
Time	Title	Speaker	Country
14:00-14:20	Delirium Management, Novel New Therapies.	Dr. Yahya Shehabi	Australia
14:20-14:40	Radiology Knowledge of Intensivists in Patient Management: Real Cases.	Dr. Imad Swaiss	Jordan
14:40-15:00	Artificial Intelligence in Anesthesia and Pain Management.	Dr. Amar Salti	UAE
15:00-15:20	Gray Zone in Regional Anesthesia.	Dr. Yasser Reda	Qatar
15:20-15:40	Update on Fascial Plane Blocks	Dr. Amar Salti	UAE
15:40-16:00	Perioperative Hemodynamic Management.  GE HealthCare	Dr. Frédéric Michard	Switzerland
16:00-16:10	Discussion		
16:10-16:30	Coffee Break		

DAY 2

Friday | 25 September 2026

Session 8			16:30-18:40
Session Chairperson(s): Dr. Mashael Alhegelan, Dr. Moath Kreishan, Dr. Mohammad Saleh, Dr. Mohammed Shawagfeh			
Time	Title	Speaker	Country
16:30-16:50	Sleepless in ICU – The Epidemic Unfolds.	Dr. Yahya Shehabi	Australia
16:50-17:10	VAP Management Update.	Dr. Sufyan Gammaz	Jordan
17:10-17:30	Anesthesia for Thoracic Surgery: How to Improve Outcomes.	Dr. Ahed Al Edwan	Jordan
17:30-17:50	Latest Updates in Thoracic Surgery at KHCC.	Dr. Ahmad Alkharabsheh	Jordan
17:50-18:10	The role of anesthesiologist intensivists and pain specialists in palliative care: our vision and future.	Dr. Mohammed Shawagfeh	Jordan
18:10-18:30	Perioperative Ventilation Strategies and Airway Management in Obese Patients: Updated Evidence and Practical Recommendations.	Dr. Mohamed Hamed Fayyoun	Egypt
18:30-18:40	Discussion		

DAY 3

Saturday | 26 September 2026

Workshop 1

Ultrasound-Guided Regional Anaesthesia

Upper Extremity Blocks

Code: JSAIC26-WS-D3-01	
Date: Saturday, 26 September 2026	Time: 08:00 AM – 11:00 PM
Duration: 3 Hours	Capacity: 10 Persons
Faculty: Dr. Yasser Reda (Qatar)	Fee: (AMSA) JOD 50

COURSE DESCRIPTION

This intensive practical workshop focuses on ultrasound-guided regional anaesthesia for upper limb surgery. Participants will develop competency in brachial plexus and peripheral nerve blocks using modern ultrasound-guided techniques.

LEARNING OBJECTIVES

- Optimize ultrasound machine settings.
- Identify brachial plexus anatomy.
- Perform safe upper limb nerve blocks.
- Improve needle visualization.
- Prevent complications.

COURSE CONTENT

- Basic Principles: Ultrasound Physics, Probe Orientation, Needle Visualization, Local Anaesthetic Spread
- Brachial Plexus Blocks: Interscalene, Supraclavicular, Infraclavicular, Axillary
- Peripheral Nerve Blocks: Median, Ulnar, Radial, Musculocutaneous, Suprascapular, Axillary
- Practical Training: Live scanning, Faculty demonstration, Supervised hands-on practice, Clinical scenarios

DAY 3

Saturday | 26 September 2026

Workshop 2

Ultrasound-Guided Regional Anaesthesia

Lower Extremity Blocks

Code: JSAIC26-WS-D3-02	
Date: Saturday, 26 September 2026	Time: 08:00 AM – 11:00 PM
Duration: 3 Hours	Capacity: 10 Persons
Faculty: Dr. Amar Salti (UAE)	Fee: (AMSA) JOD 50

COURSE DESCRIPTION

This workshop focuses on ultrasound-guided lower extremity regional anaesthesia for orthopedic, trauma, and ambulatory surgery.

LEARNING OBJECTIVES

- Identify lower limb sonoanatomy.
- Perform ultrasound-guided lower limb nerve blocks.
- Improve procedural accuracy.
- Prevent complications.

COURSE CONTENT

- Blocks: Femoral, Fascia Iliaca, Adductor Canal, PENG, IPACK, Popliteal Sciatic, Lateral Femoral Cutaneous Nerve, Ankle Block
- Practical Training: Live ultrasound scanning, Needle guidance, Faculty-supervised practice, Clinical applications

DAY 3

Saturday | 26 September 2026

Workshop 3

Ultrasound-Guided Regional Anaesthesia

Truncal & Fascial Plane Blocks

Code: JSAIC26-WS-D3-03	
Date: Saturday, 26 September 2026	Time: 02:00 PM – 05:00 PM
Duration: 3 Hours	Capacity: 16 Persons (JOD 50)
Faculty: Dr. Amar Salti (UAE), Dr. Eyas Diab (AMSA)	
Coordinator: Dr. Ahmed Shahin (Jordan)	
Equipment: Two Ultrasounds	

COURSE DESCRIPTION

This workshop provides practical training in ultrasound-guided fascial plane blocks for thoracic, breast, abdominal, and trauma surgery with emphasis on enhanced recovery and opioid-free analgesia.

LEARNING OBJECTIVES

- Recognize truncal sonoanatomy.
- Select the appropriate block.
- Perform ultrasound-guided fascial plane blocks safely.
- Integrate regional analgesia into multimodal pain management.

COURSE CONTENT

- Fascial Plane Blocks: PECS I, PECS II, Serratus Anterior Plane, Erector Spinae Plane (ESP), TAP Block, Quadratus Lumborum (QL), Rectus Sheath, Ilioinguinal & Iliohypogastric
- Practical Training: Live scanning, Needle guidance, Cadaveric/phantom simulation (if available), Hands-on practical stations

DAY 3

Saturday | 26 September 2026

Session 9			09:00-11:00
Session Chairperson(s): Dr. Abdulaziz Amro, Dr. Amar Salti, Dr. Faisal Abanah, Dr. Abbas Al-Taweel			
Time	Title	Speaker	Country
09:00-09:20	Optimizing Positive End-Expiratory Pressure in Acute Respiratory Distress Syndrome.	Dr. Lou'i Al-Husinat	Jordan
09:20-09:40	The Co-Pilot in the ICU.	Dr. Mashael Alhegelan	Saudi Arabia
09:40-10:00	Redefining Cancer Pain Management Through Interventional Pain Medicine.	Dr. Shahzad Anwar	Pakistan
10:00-10:20	Oxygen as a Drug: The Use and Abuse in ICU.	Dr. Yahya Shehabi	Australia
10:20-10:40	Discussion		
10:40-11:00	Coffee Break		

DAY 3

Saturday | 26 September 2026

Session 10		11:00-12:00	
Session Chairperson(s): Dr. Qasem Torman, Dr. Wissam Khreisat			
Time	Title	Speaker	Country
11:00-11:30	Low-Flow Anesthesia & Environmental Sustainability: Two Priorities for Today's OR. Baxter	Dr. Amar Salti	UAE
11:30-12:00	Advancing Nutritional Care with Ready-to-Use Parenteral Nutrition. Baxter	Pr. Elisabeth De Waele	Belgium

DAY 3

Saturday | 26 September 2026

Session 11		12:00-13:00	
الممارسة الطبية السليمة والمسؤولية الطبية القانونية Standards of Good Medical Practice and Medico-Legal Responsibility			
Session Chairperson(s): Prof. Dr. Islam M. Massad			
Time	Title	Speaker	Country
12:00-13:00	Standards of Good Medical Practice and Medico-Legal Responsibility (Panel, 60 min)	Ms. Fidaa Al-Hmoud <i>Former President of the Legislation and Opinion Bureau</i> Dr. Mohammad Al-Harout <i>Chairman of the Higher Technical Committee for Medical Errors</i> Dr. Mahmoud Zreikat <i>Consultant in Forensic Medicine and Toxicology; Member of the Higher Technical Committee for Medical Errors</i> Adv. Anas As'ad Jawhar <i>Lawyer specializing in Medical Malpractice Cases</i>	Jordan
13:00-14:00	Lunch		

DAY 3

Saturday | 26 September 2026

Session 12			14:00-16:00
Session Chairperson(s): Dr. Ibrahim Otom, Dr. Khaled Al Zaben, Dr. Wail Khraise, Dr. Raja'i Samreen			
Time	Title	Speaker	Country
14:00-14:20	Emergent Intubation in ICU – Safety First.	Dr. Yahya Shehabi	Australia
14:20-14:40	Strategic Intersection of Clinical Nutrition and Anesthesia.	Dr. Basem M. AbuBaker	Jordan
14:40-15:00	Atypical Facial Pain.	Dr. Yaser Al Haj Ali	Jordan
15:00-15:40	Association Between Perfusion Index and Intraoperative Core Temperature Dynamics in Cancer Surgery: A Prospective Observational Study.	Dr. Ahmad Arraqap	Jordan
15:40-15:50	Discussion		
15:50-16:10	Coffee Break		

DAY 3

Saturday | 26 September 2026

**Session: POCUS (Point-of-Care
 Ultrasound) Case Discussion**

16:10-17:30

Case Presentation: Decreasing the Invasiveness of Ultrasound-Guided Caudal Block: A Prospective Randomized Controlled Trial Comparing 22-Gauge and 27-Gauge Needles

Session Chairperson(s): Dr. Badie Abuseif, Dr. Abdelkarim Aloweidi Alabbadi, Dr. Munir Shawagfeh

Speakers: Omar Al Duraa (USA), Nibras Bughrara (USA), Aliaksei Pustavoitau (USA)

Time	Title
16:10-17:30	Decreasing the Invasiveness of Ultrasound-Guided Caudal Block: A Prospective Randomized Controlled Trial Comparing 22-Gauge and 27-Gauge Needles
17:30	Closing Remarks & Certificate

POSTERS SESSIONS

POSTERS will be displayed on Friday, 25 September
and Saturday, 26 September 2026 in the hall located
in front of the Exhibition Hall

Poster 1 • Respiration & Airway Management

Perioperative Changes in Spirometric Parameters After Bariatric Surgery (also listed as: Dynamics of Spirometric Parameters in Patients Undergoing Bariatric Surgery During the Preoperative and Postoperative Periods)

Presenter: Dr. Aybaniz Hajiyevea

Email: aybaniz.hajiyevea.s8@gmail.com

Co-Authors: Rimma İ. Nasirova, Aybaniz İ. Hajiyevea

Affiliation: Azerbaijan State Advanced Training Institute for Doctors, Dept. of Anesthesiology and Reanimatology, Baku, Azerbaijan; Modern Hospital Clinic, Baku, Azerbaijan

Poster 2 • Regional Anaesthesia

Role of Thoracic Epidural Aid in Rehabilitation After Thoracic Surgery — A Series of 1300 Cases

Presenter: Lecturer A. Touhami Fatima Zohra

Email: touhamifz73@gmail.com

Co-Authors: F.Z. Touhami, S. Yousfi (yousfisk@yahoo.fr), F. Mazour (affanefatima@gmail.com)

Affiliation: University Hospital of Oran, November 1 1954, Algeria — Dept. of Surgical Anesthesia and Intensive Care

Poster 3 • Acute & Chronic Pain Management and Palliative Care

Enhanced Postoperative Rehabilitation After Mastectomy: The Impact of Spinal Erector Block in the Management of Acute Postoperative Pain

Presenter: Assistant Prof. Yousfi Safia

Email: yousfisk@yahoo.fr

Co-Authors: S. Yousfi, F.Z. Touhami, H. Remouche, A. Bensetti, M.R. Benosmane, M.A. Benhamed, A. Zerhouni, K. Belkharroubi

Affiliation: Faculty of Medicine, University of Oran, Algeria

Poster 4 • Ambulatory Anaesthesia

Perioperative Anesthetic Management in Ambulatory Surgery Patients

Presenter: Assistant Prof. Yousfi Safia

Email: yousfisk@yahoo.fr

Co-Authors: F.Z. Touhami, H. Remouche, A. Bensetti, M.R. Benosmane, M.A. Benhamed, A. Zerhouni, K. Belkharroubi

Affiliation: Faculty of Medicine, University of Oran, Algeria

Poster 5 • Cardiac, Thoracic & Vascular Anaesthesiology

Extra Corporeal Membrane Oxygenation (ECMO) as an Innovative Technique in Anesthesia in Tracheal Surgery

Presenter: Maître de Conférence "A" Touhami Fatima Zohra

Email: touhamifz73@gmail.com

Co-Authors: Touhami Fatima Zohra, Yousfi Safia (yousfisk@yahoo.fr), Mazour Fatima (affanefatima@gmail.com)

Affiliation: Etablissement Hospitalier Universitaire 1er Novembre 1954 d'Oran, Service d'anesthésie réanimation chirurgicale, Oran, Algérie

Poster 6 • Perioperative Medicine

Anesthetic Management of a 4-Year-Old Boy with Merosin-Deficient Congenital Muscular Dystrophy (MDC1A) and Co-existing Thalassemia Major Undergoing Closed Reduction of a Femur Fracture: A Case Report

Presenter: Dr. Mohammed Rawhi Ibrahim (Anesthesia Resident)

Email: mhammedrawhi@gmail.com

Co-Authors: Mohammed Rawhi Ibrahim (presenter), Akram Qasim

Affiliation: Department of Anesthesiology and ICU, Radidia Surgical Hospital, Nablus, West Bank, Palestine

Poster 7 • Perioperative Medicine

Preoperative Neutrophil-to-Lymphocyte Ratio as a Predictor of Postoperative Complications in Colorectal Cancer Surgery: Implications for Perioperative Anesthesia Risk Stratification

Presenter: Zaina Rawashdeh, MD

Email: zaina.bilal2@icloud.com

Co-Authors: Zaina Rawashdeh, Ahmed Rawshdeh

Affiliation: Faculty of Medicine, University of Jordan; Internal Medicine Residency, Jordanian Royal Medical Services

Poster 8 • Transfusion, Haemostasis & Thrombosis

Viscoelastic Testing (TEG/ROTEM) vs Conventional Coagulation Tests for Transfusion Guidance in Trauma Anesthesia and Perioperative Critical Care: A Systematic Review and Meta-Analysis

Presenter: Zaina Rawashdeh, MD

Email: zaina.bilal2@icloud.com

Co-Authors: Zaina Rawashdeh, Ahmed Rawshdeh

Affiliation: Faculty of Medicine, University of Jordan; Internal Medicine Residency, Jordanian Royal Medical Services

Poster 9 • Acute & Chronic Pain Management and Palliative Care*

Epidural Steroid Injection: A Minimally Invasive Approach to Pain Management

Presenter: Abdel-motaleb Mohammad F. Alshra'a, MD (Anesthesiologist)

Email: abdelalshraa@yahoo.com

Co-Authors: Abdel-motaleb Mohammad Al Shra'a

Affiliation: Jordanian Royal Medical Services

Poster 10 • Regional Anaesthesia

Long-Term Ambulatory Tunneled Peripheral Nerve Block Catheters in Cancer Pain: Retrospective Evaluation of Infection Incidence Beyond Conventional Duration Limits

Presenter: Dr. Mohammad Ghaleb Riziq (Consultant, Anaesthesia & Pain Medicine)

Email: riziq_1987@yahoo.com

Co-Authors: Ahmad Ibrahim El-Share', Mahmud Nassar Kammounah, Mohammad AL Zarir, Khalaf Shakhatreh, Fadi Abu-Farsakh, Emad Abu Zakyah, Yacob Saleh, Faris Tamimi, Mohammad Alhawarneh, Munir Shawagfeh, Omar Shamieh, Mustafa Bader, Mohammad Radaideh, Waleed Alrjoub

Affiliation: King Hussein Cancer Center

Poster 11 • Acute & Chronic Pain Management and Palliative Care

Comparative Study Between Early Chemical Neurolytic Coeliac Plexus Block for Pancreatic Cancer-Related Upper Abdominal Pain & Late Presentation Neurolytic Blocks in Opioid Consumption and Dose Escalation

Presenter: Dr. Mohammad Riziq, MD (Consultant, Anaesthesia & Pain Medicine)

Email: riziq_1987@yahoo.com

Co-Authors: Amin Albaik MD, Eyas Moh'd Abu-Diab MD, Mohammad Alnemer MD, Tala Alawabdeh MD, Kholoud Alqasem MD, Mohammad AL-Foqaha'a MD, Tagreed Abu Irshaid RN

Affiliation: King Hussein Cancer Center — Jordan

Poster 12 • Intensive Care Medicine

THE USE OF SUBCOSTAL POINT-OF-CARE ULTRASOUND DURING CARDIOPULMONARY RESUSCITATION: A 37-CASE SERIES

Khalid Al-Bawaliz, MD (1 - Presenter); Andy Burk, BS (1); Nala Bughrara, BS (2);
Aliaksei Pustavoitau, MD (3); Nibras Bughrara, MD FCCM FASA (1)
(1) *Anesthesiology, Albany Medical Center, Albany, NY, USA;* (2) *Libyan International
Medical University, Libya;* (3) *Anesthesiology & Critical Care Medicine, Johns Hopkins
Hospital, Baltimore, MD, USA*

Poster 13 •

CLINICAL EFFICACY AND DURATION OF BENEFIT FOLLOWING MULTIMUSCLE TRIGGER-POINT INJECTIONS FOR CHRONIC PERISCAPULAR MYOFASCIAL PAIN: A PROSPECTIVE CLINICAL STUDY

Dr. Ahmad Hammash | Department of Pain Medicine, Al-Basheer Hospital
