

SPEAKER PROFILES

15th International Conference of the Jordan Orthopaedic Association (JOA)

04–07 November 2026 • St. Regis Hotel, Amman, Jordan

David H. Sochart

GB United Kingdom

Lower Limb Arthroplasty

- *MBChB, FRCS(Edin.), FRCS(Tr. & Orth.), MD*
- *Consultant Orthopaedic Surgeon*
- *Specialist in Lower Limb Arthroplasty*
- *Director of Education and Assistant Director of the Academic Surgical Unit (ASU)*
- *at the South West London Elective Orthopaedic Centre (SWLEOC)*

Sulaiman Alazzawi

GB United Kingdom

Hip & Knee Arthroplasty

Mr Sulaiman Alazzawi is a Consultant Orthopaedic and Trauma Surgeon at St George's University Hospital and the South West London Elective Orthopaedic Centre in the UK. He specialises in hip and knee arthroplasty, with a particular interest in the management of complex and failed joint replacements. He works within a tertiary referral service for joint replacement and has a high-volume revision arthroplasty practice, treating complex cases including aseptic loosening, instability, bone loss and periprosthetic joint infection.

Sandeep Datir

GB United Kingdom

Hip & Knee Arthroplasty

Mr Sandeep Prakash Datir, MBBS, MS (Orth), DNB (Orth), MRCS (Edin), MCh (Liverpool), FRCS (Tr & Orth), is a Consultant Trauma and Orthopaedic Surgeon at Hull University Teaching Hospitals NHS Trust with over 15 years of consultant experience in UK. He specialises in primary and complex hip and knee arthroplasty, revision hip surgery, and hip arthroscopy. He trained in India, where he also served as a lecturer, before completing higher specialist training in the UK. He undertook an advanced Lower Limb Arthroplasty Fellowship at Wrightington Hospital. His practice is based on evidence-based medicine and modern reconstructive techniques. He has authored peer-reviewed publications and presented at BOA, British Hip Society, European Hip Society, and BASK meetings. He is actively involved in education, mentoring trainees, and improving outcomes in complex and revision joint replacement surgery.

Nelson V. Greidanus

CA Canada

Hip & Knee Reconstruction

- *Orthopaedic Surgeon / Hip & Knee Reconstruction / Arthroplasty*

Dr. Nelson V. Greidanus is an orthopaedic surgeon specializing in complex hip and knee replacement, primary and revision arthroplasty, periprosthetic fractures, infection, and reconstruction.

He is a faculty member at the University of British Columbia (UBC) and serves in leadership roles in orthopaedic education and continuing professional development. He completed his medical and orthopaedic training at the University of Alberta, followed by fellowship training in complex hip and knee surgery at Rush Medical Center, Chicago, and a Master of Public Health degree from Harvard University.

His academic work focuses on outcomes research, clinical trials, epidemiology, and health services research related to osteoarthritis and joint replacement. He has received several prestigious research and educational awards and is actively involved in teaching medical students, residents, fellows, and orthopaedic surgeons.

Feras Ya'ish

AE UAE

Lower Limb Arthroplasty & Trauma

- *Chair of AO Recon Middle East & North Africa MENA*
- *Consultant Trauma & Orthopaedics*
- *Orthopaedic and Sports Injuries Centre*
- *Healthpoint Hospital*
- *Abu Dhabi, UAE*

Trauma and Orthopaedics consultant in Abu Dhabi, UAE, with clinical interests in Lower limb arthroplasty, sports injuries, Trauma Orthopaedics, and Pelvic Trauma surgery.

Graduate from Jordan University of Science and Technology. Trained and practiced in the United Kingdom for 13 years. Previously consultant at James Cook University Hospital, UK, before relocating to the UAE. Chairman of AO Recon MENA. Previously chair of peri-operative committee at Healthpoint Hospital, and Chair of Orthopaedics department at Mafraq Hospital and Sheikh Shakhbout Medical Centre, Abu Dhabi UAE. Adjunct Associate-Professor at Khalifa University, Abu Dhabi, and Member of AO Recon Global Educational Forum.

Sherif A. Khaled

EG Egypt

Pelvis & Joint Reconstruction

Prof. Dr. Sherif A. Khaled Professor of Orthopedics. Head of the Pelvis and joint Reconstruction Unit, Dept of Orthopedics and Traumatology, Cairo University. AO Community Development committee board member
MENAMember of AO, EOA, EPHAKS, AAHKS, IMS

Christian Heiss

DE Germany

Trauma & Reconstructive Surgery

- *Prof. Dr. Christian Heiss, Germany*

Professor Christian Heiss is a distinguished specialist in Trauma and Orthopaedic Surgery and Professor of Trauma and Orthopaedics at Justus Liebig University Giessen, Germany. He serves as Chairman of the Department and Institute of Experimental Trauma Surgery at University Hospital Giessen-Marburg and has extensive expertise in trauma, orthopaedics, reconstructive surgery, sports medicine, and experimental research.

His international training includes AO and Harvard fellowships at the University of Mississippi and Massachusetts General Hospital, Boston. He has also held associate professorships in Romania and Türkiye and has contributed to several major scientific and professional organizations, including AO Trauma Germany.

Saeed Ali Althani

AE UAE

Shoulder, Elbow & Sports Medicine

Dr. Saeed Ali Althani is a Consultant Orthopaedic Surgeon specializing in arthroscopy, sports medicine, shoulder and elbow surgery, and joint reconstruction. He currently practices at Mediclinic City Hospital and Orthocure Medical Center and serves as Assistant Professor at United Arab Emirates University.

Fellowship-trained at the University of Toronto and certified by the Royal College of Physicians and Surgeons of Canada, Dr. Althani holds several prominent leadership roles, including President of the Arab Shoulder and Elbow Association, Chairman of the Dubai Shoulder Course, and Chairperson of AO Trauma UAE Chapter.

His clinical interests include shoulder and elbow surgery, arthroscopy and sports medicine, knee ligament reconstruction, complex joint reconstruction, and orthopaedic trauma.

Mehmet Armangil

TR Türkiye

Hand & Upper Extremity Surgery

- *Professor of Orthopaedics and Traumatology*
- *Hand and Upper Extremity Surgeon*
- *Division of Hand Surgery, Department of Orthopaedics and Traumatology*
- *Ankara University Faculty of Medicine, Ankara, Türkiye*

Prof. Mehmet Armangil is a Professor of Orthopaedics and Traumatology at the Division of Hand Surgery, Ankara University Faculty of Medicine. His clinical and academic practice focuses on shoulder surgery, reconstructive microsurgery, brachial plexus surgery, shoulder arthroscopy, and wrist arthroscopy. His expertise also includes peripheral nerve surgery, upper extremity trauma, and complex reconstructive procedures.

Prof. Armangil is the Immediate Past President of the Turkish Society for Reconstructive Microsurgery, following six years of service on its Executive Board. He also served on the Executive Board of the Turkish Shoulder and Elbow Surgery Society for four years and was Secretary of the Turkish Society for Surgery of the Hand for two years.

He has authored more than 60 international peer-reviewed scientific publications and has been an invited speaker and faculty member at numerous national and international scientific meetings. His research interests include reconstructive microsurgery, brachial plexus injuries, peripheral nerve surgery, shoulder surgery, arthroscopy, and upper extremity reconstruction. Prof. Armangil is actively involved in resident education, fellowship training, and the advancement of hand and microsurgical techniques through scientific research and international collaboration.

Ismail Bülent Özçelik

TR Türkiye

Hand Surgery & Microsurgery

- *Prof. Dr. İsmail Bülent Özçelik*
- *Professor of Orthopaedics / Hand & Upper Extremity Surgery / Reconstructive Microsurgery*

Prof. Dr. İsmail Bülent Özçelik is a Professor of Orthopaedics with extensive expertise in hand and upper extremity surgery, reconstructive microsurgery, wrist arthroscopy, peripheral nerve surgery, and complex trauma reconstruction.

He graduated from Istanbul University Faculty of Medicine and completed his Orthopaedics and Traumatology training at Şişli Etfal Training and Research Hospital. He obtained his Hand Surgery qualification in 2011 and became Professor in 2018.

Since 2005, he has been practicing at Yeni Yüzyıl University Gaziosmanpaşa Hospital, performing more than 1,000 surgical procedures annually. He has received advanced training in Germany and France and has served as an instructor in wrist arthroscopy courses at IRCAD Strasbourg since 2014.

He is a former President of the Turkish Reconstructive Microsurgery Association and an active international faculty member in hand surgery, microsurgery, and wrist arthroscopy.

Mustafa Rashid

GB United Kingdom

Shoulder Surgery

- *Superspecialist Shoulder Surgeon*

Dr. Mustafa Rashid is a dual board-certified (British and European), award-winning shoulder surgeon with international expertise. He trained at leading UK and global centres, including Oxford, London, Calgary, and Wrightington. He holds a DPhil (PhD) from the University of Oxford for award-winning research on rotator cuff repair augmentation and is a consultant at Colchester General Hospital, working at the newly built Dame Claire Marx Building.

He remains an active researcher and speaker in shoulder surgery and is a member of prestigious professional societies, including the British Elbow and Shoulder Society (BESS), the European Society for Surgery of the Shoulder and Elbow (SECEC) the American Shoulder and Elbow Surgeons (ASES).

His practice focuses exclusively on relieving pain and restoring shoulder function through both keyhole and reconstructive (joint replacement) surgery. He prioritises non-surgical care where possible and uses the latest proven techniques when surgery is required. Committed to patient education, he ensures clear explanations and works closely with rehabilitation specialists to optimise recovery and prevent re-injury.

Jacob Der Tavitian

GB United Kingdom

Shoulder & Upper Limb Surgery

- *Consultant Orthopaedic Surgeon / Shoulder & Upper Limb Surgery*

Mr Jacob Der Tavitian is an experienced orthopaedic surgeon specialising in shoulder and upper limb surgery, including advanced arthroscopic procedures, shoulder and elbow replacement, sports injuries, and wrist and hand surgery.

He completed his orthopaedic training in the UK, including a research year at Leicester University Hospitals, followed by advanced fellowships in Perth, Western Australia, and at the internationally recognised Wrightington Hospital.

Since 2005, he has practised at Spire Hull and East Riding Hospital, treating a wide range of shoulder, elbow, wrist and hand conditions. His clinical interests include rotator cuff disorders, shoulder instability, frozen shoulder, tennis elbow, carpal tunnel syndrome, Dupuytren's contracture and other complex upper limb conditions.

Ashley I. Simpson

GB United Kingdom

Brachial Plexus & Nerve Surgery

- *BA(Hons) / MBBS / MA(Cantab) / MSc(Lond) / PGCert (MedEd) / PGCert (Data Science) / FRCS(Orth) / FAcadMED*

Mr Ashley Simpson is a dual fellowship-trained Consultant Brachial Plexus and Peripheral Nerve Surgeon at the world-renowned Peripheral Nerve Injury Unit, Royal National Orthopaedic Hospital, Stanmore. His specialist practice encompasses adult and paediatric brachial plexus and peripheral nerve surgery, including traumatic and iatrogenic nerve injuries, thoracic outlet syndrome, nerve sheath tumours, entrapment neuropathies and complex upper-limb reconstruction. He has undertaken specialist fellowships in peripheral nerve, upper-limb, and sports surgery in the United Kingdom and Australia.

Mr Simpson studied Neuroscience and Medicine at St John's College, University of Cambridge, and holds postgraduate qualifications in Trauma Science, Medical Education and Clinical Data Science and is a Fellow of the Academy of Medical Educators.

He has authored more than 70 peer-reviewed publications and lectures internationally on nerve injury. He is Associate Editor of Shoulder & Elbow journal and Specialty Upper Limb Editor for the Annals of the Royal College of Surgeons of England. He is the founder of the British Nerve Surgery Society (BNSS) and a specialist Board Member of the British Elbow and Shoulder Society (BESS), SICOT and the Global Nerve Foundation (GNF).

Mr Simpson is Course Director of the London Brachial Plexus and Peripheral Nerve Course and Chair of the Board of Trustees of the charity Pain UK. His principal academic interests include peripheral nerve reconstruction, the centralisation of specialist nerve services, surgical education and the application of artificial intelligence to clinical practice.

Ashraf Moharram

EG Egypt

Hand Surgery & Microsurgery

- *Professor of Orthopedic Surgery / Hand & Upper Limb Surgery / Microsurgery*

Prof. Dr. Ashraf Moharram is Professor of Orthopedic Surgery at Kasr Al-Ainy, Cairo University, with extensive expertise in hand and upper limb surgery, microsurgery, peripheral nerve surgery, trauma, and sports injuries.

He served as President of the Egyptian Society for Surgery of the Hand and is a Board Member of the Egyptian Orthopedic Association.

Prof. Moharram is widely recognized for his academic, surgical, and educational contributions, combining advanced microsurgical techniques with complex orthopedic and trauma care.

Khalid M.I. Salem

GB United Kingdom

Spinal Surgery

Mr. Khalid M.I. Salem (MB ChB, FRCS, DM) is a Consultant Orthopaedic Spinal Surgeon based in Nottingham, United Kingdom. He holds primary clinical appointments at the Centre for Spinal Studies and Surgery within the Nottingham University Hospitals NHS Trust and at Nottingham Spire Hospital.

He is Director of the Advanced Spinal Surgery Fellowship and previously served as Head of the regional spinal service. His advanced training includes spinal fellowships in Nottingham and Vancouver, and he holds the European Spine Surgery Diploma.

Mr. Salem has published more than 55 peer-reviewed articles and contributes internationally to education in minimally invasive spine surgery, adult deformity, and complex cervical surgery.

Neil T. Davidson

GB United Kingdom

Spinal Surgery

Mr. Neil Davidson is a Consultant Spinal Surgeon with expertise in adult and paediatric spinal surgery, including degenerative spinal conditions, disc disorders, spinal deformity, tumours, and trauma.

He practices at the Robert Jones and Agnes Hunt Orthopaedic Hospital and Alder Hey Children's Hospital. His training includes the Mersey Orthopaedic Training Programme, a spinal fellowship at RJAH/Alder Hey, and a visiting fellowship in Brisbane, Australia. His research interests include idiopathic scoliosis and degenerative spine conditions.

Rene Schmidt

DE Germany

Spine Surgery

- *Dr Rene Schmidt trained as an orthopedic surgeon at University in Ulm and Mannheim (southern Germany)*
- *Fellowship in Birmingham and Ankara*
- *Head of Department in öppingen since 2013*
- *Active participant in teaching for AO, Eurospine, German Spine, Ulrich, and Stryker*
- *Secretary general of German Spine society since 2025*

Simon Chambers

GB United Kingdom

Foot & Ankle / Limb Reconstruction

Dr Simon Chambers is a highly skilled Consultant Orthopaedic Surgeon who specialises in foot and ankle surgery, trauma surgery, and complex limb reconstruction. With a patient-centred approach, he is dedicated to restoring mobility and improving the quality of life for individuals experiencing debilitating bone, joint, and soft tissue conditions. His clinical practice encompasses a wide range of advanced procedures, from corrective foot and ankle surgeries to managing acute trauma and performing intricate limb reconstructions using ring fixators.

Dr Chambers completed his medical degree at medical school in Newcastle, qualifying in 2004. Following his graduation, he undertook comprehensive basic and higher surgical training in the Northeast of England. To further refine his expertise, he completed several prestigious international fellowships. He was selected as an AO International Trauma Fellow in Marseille, France, and subsequently completed a dedicated Foot and Ankle Fellowship in Glasgow. He also spent a year in Melbourne, Australia, gaining advanced experience in complex trauma and limb reconstruction.

In addition to his clinical work, Dr Chambers is actively involved in medical research and education. He has contributed to numerous peer-reviewed publications and research projects, particularly focusing on ankle replacements and reconstructive techniques. His academic contributions were recognised in 2015 when he won the prize for Best International Paper at the American Orthopaedic Foot & Ankle Society for his research on ankle replacements. He holds professional memberships including Fellowship of the Royal College of Surgeons in Trauma and Orthopaedics.

Sultan Qasim

GB United Kingdom

Foot & Ankle Surgery

- *Consultant Trauma and Orthopaedics*
- *Newcastle upon Tyne Hospitals NHS Foundation Trust*

Mr Sultan Qasim is a Consultant Orthopaedic Surgeon specialising in foot and ankle surgery in Newcastle. He completed his orthopaedic training in the East Midlands and fellowship training at Wrightington Hospital.

He leads a tertiary service for Charcot Reconstruction and tertiary referral service for complex neurological foot and ankle deformities at Freeman Hospital.

He contributes to national and international orthopaedic training courses, supervises medical students at Newcastle University, and has led national multi-centre studies and published on ankle injury rehabilitation, ankle fractures, diabetic foot disease, and total ankle replacement.

Ossama Elshazly

EG Egypt

Foot & Ankle Surgery

- *Professor of Orthopaedic Surgery / Foot & Ankle Surgery*

Prof. Ossama Elshazly is Professor of Orthopaedic Surgery at the Faculty of Medicine, Ain Shams University, Egypt, with a special interest in foot and ankle surgery.

He serves as President of the Egyptian Foot and Ankle Society (EGYFAS) and has held several senior academic and administrative positions, including General Secretary of the Higher Committee of Medical Specialties and Egyptian Fellowship Programs and former General Manager of the National Training Institute.

Prof. Elshazly is actively involved in orthopaedic education, specialist training, and the advancement of foot and ankle surgery in Egypt.

Vincenzo Salini

IT Italy

Hip & Knee Arthroplasty / Sports Med.

- *Full Professor of Diseases of the Musculoskeletal System*
- *Università Vita-Salute San Raffaele, Milan*
- *Specialist in Sports Medicine and in Orthopaedics and Traumatology*
- *Expertise Hip and knee arthroplasty, revision surgery, sports traumatology, and robotic joint surgery.*

Full Professor and Director of the Residency Programme in Orthopaedics and Traumatology at Università Vita-Salute San Raffaele. Over thirty years of clinical, surgical and academic activity in hip and knee arthroplasty and revision surgery, traumatology and sports medicine, supported by an extensive network of national and international collaborations.

Academic & Leadership Director of Orthopaedics and Traumatology, San Raffaele, Milan; Director of the Orthopaedics Residency Programme.

International Activity International faculty and lecturer with AO Trauma, EFORT, and major arthroplasty meetings.

Ashraf Hantouly

CA Canada

Shoulder & Knee Sports Medicine

Dr. Ashraf Hantouly, MD, MSc, is an orthopaedic surgeon specializing in shoulder and knee surgery. He has Orthopedics Sports Medicine fellowships at The Fowler Kennedy Sport Medicine Clinic, McMaster University and Aspetar Orthopaedics and Sports Medicine Hospital. He holds a masters degree in Global Public Health and Policy from Queen Mary University of London and is currently pursuing a PhD in Health Research Methodology at McMaster University, with a focus on orthobiologics. Dr. Hantouly has authored more than 75 peer-reviewed publications and book chapters. His clinical and research interests include ACL reconstruction, meniscal and cartilage surgery, shoulder instability, rotator cuff pathology, and orthobiologics.

Murat Bozkurt

TR Türkiye

Joint Surgery & Sports Medicine

He is currently Professor and Director of Sports and Joint Health Center at Ankara Acibadem Hospital. Prof. Bozkurt is expert in Joint Surgery, Arthroplasty, Arthroscopy and Sports Medicine, Cartilage Treatment. He has PhD degree in Anatomy and several publications in international journals. He is founder and director of Arthroschool online education platform.

Ips Oberoi

IN India

Arthroscopy & Robotic Knee Surgery

- *Past President, Indian Arthroscopy Society*
- *Convener, Arthroscopy Learning Center India*
- *Chairperson orthopedics program*
- *Chief arthroscopic surgery and Robotic knee replacement surgery*
- *Artemis hospital*
- *India*

Jonathan Stevenson

GB United Kingdom

Orthopaedic Oncology & Limb Salvage

Professor Jonathan Stevenson specialises in paediatric and adult bone and soft-tissue sarcomas, limb-salvage and complex joint replacements, particularly prosthetic joint infection (PJI). In 2015, Jonathan joined the Royal Orthopaedic Hospital NHS Trust and is an honorary professor at the University of Birmingham. He has received several research awards from the British Orthopaedic Association, the British Orthopaedic Oncology Society, and the Royal Society of Medicine. Furthermore, he was elected to the clinical lead for the National Cancer Research Institute's bone metastases project in 2023. Professor Stevenson has received the British Orthopaedic Association International Travelling Fellowship Award in 2014, the European Travelling Fellowship Award from the British Orthopaedic Oncology Society in 2015 and completed the American-British-Canadian fellowship in 2024. He has recently been awarded a multi-million-pound National Institute for Health and Care Research (NIHR) grant to lead the first clinical trial in surgically treated bone metastasis patients in the United Kingdom. He has published greater than 100 peer reviewed scientific articles with over 2000 citations and authored four book chapters and co-edited an orthopaedic basic sciences textbook.

Martin Dominkus

AT Austria

Musculoskeletal Oncology

- *Professor of Orthopaedics / Orthopaedic Surgeon / Musculoskeletal Oncology & Joint Arthroplasty*

Professor Martin Dominkus is Professor of Orthopaedics at Sigmund Freud University Vienna and Head of the Second Department of Orthopaedics at the Orthopaedic Hospital Speising, Vienna. His main clinical and academic interests include musculoskeletal oncology, primary and revision joint arthroplasty, and orthopaedic surgery.

He graduated from the University of Vienna Medical School and completed specialist training in Orthopaedics at the Medical University of Vienna, followed by fellowships in rheumatologic orthopaedics in Germany and musculoskeletal oncology in Bologna, Italy, under Prof. Mario Campanacci.

During his career at the Medical University of Vienna, he served as Senior Consultant, Head of the Musculoskeletal Tumor Team, Deputy Head, and Acting Head of the Department of Orthopaedics. Since 2013, he has led the Second Department of Orthopaedics at Orthopaedic Hospital Speising, and since 2016 has held the Chair of Orthopaedics at Sigmund Freud University Vienna.

Professor Dominkus is Past Chairman of the Vienna Bone Tumor Registry and Past President of the Austrian Musculoskeletal Oncology Society (AMSOS). He has authored more than 260 scientific publications and book contributions and delivered over 200 scientific presentations. He has also served as reviewer and editorial board member for several leading international orthopaedic and radiology journals.

His distinctions include the ASG Fellowship (2002), the European Journal of Radiology Editor's Recognition Award, and several scientific and poster awards.

**Farokh Darabshaw
Wadia**

GB United Kingdom

Paediatric Orthopaedic Surgery

- *Consultant Paediatric Orthopaedic Surgeon*

Dr. Farokh Darabshaw Wadia is a Consultant Paediatric Orthopaedic Surgeon at Southampton Children's Hospital, UK, with specialist expertise in paediatric and adolescent knee surgery, limb reconstruction and deformity correction, paediatric upper limb surgery, and trauma.

He completed advanced paediatric orthopaedic fellowships at Great Ormond Street Hospital and Royal Manchester Children's Hospital, as well as an AO Trauma Fellowship at Massachusetts General Hospital, Boston.

Dr. Wadia has extensive clinical, academic, and teaching experience, with more than 30 peer-reviewed publications and numerous national and international presentations. He also leads the Wessex regional orthopaedic trainee teaching programme.

Hisham Abdel-Ghani

EG Egypt

Paediatric Orthopaedics

Prof. Pediatric Orthopaedics
Faculty of Medicine, Cairo University
Member of European Pediatric Orthopaedic Society (EPOS)
Member of American Academy of Cerebral Palsy and Developmental Medicine (AACPD)
Member of Pediatric Hand International Society Of Surgeons (PHISOS)

Mohamed Kenawey

AE UAE

Paediatric Orthopaedic & Trauma

Professor Mohamed Kenawey is a fellowship-trained paediatric orthopaedic and trauma surgeon and Clinical Professor of Orthopaedic Surgery at Mohammed Bin Rashid University of Medicine and Health Sciences, Dubai. He is also Professor of Orthopaedic Surgery at Sohag University and a Consultant Paediatric Orthopaedic Surgeon at Al Jalila Children's Hospital and Royal Manchester Children's Hospital. Trained at Hannover Medical School and Toronto's SickKids Hospital, he specialises in complex trauma, paediatric hip preservation, limb reconstruction and deformity correction. His academic portfolio includes 47 peer-reviewed publications, 10 book chapters and several award-winning surgical education videos. His research interests encompass paediatric trauma, limb reconstruction, sustainable healthcare and the responsible application of artificial intelligence in clinical practice.

Hilary Anna Felice

CA Canada

Trauma & Pelvic Reconstruction

- *Canada*

Dr. Felice completed her residency training in Orthopaedic Surgery at the University of Toronto in 2020, followed by fellowship training in Adult Trauma and Advanced Reconstructive Surgery at the University of Missouri and Foot and Ankle Surgery at the University of Toronto. In 2022, she joined the University of Missouri as an Assistant Professor and orthopaedic traumatologist, where she obtained certification by the American Board of Orthopaedic Surgery.

In 2024, Dr. Felice returned to the University of Toronto to join the Division of Orthopaedic Surgery at Sunnybrook Health Sciences Centre. Her clinical practice focuses on adult orthopaedic trauma and reconstructive surgery, with particular interests in pelvic and acetabular trauma and complex limb reconstruction. Her academic interests focus on surgical education, including curricular innovation and surgical skills training in postgraduate medical education.
